Baby I Was Made For Loving You

No Mercy

You're my everything You're my wildest dream I'm a summer breeze On your tender skin You're my everything The heart of my desire

You're my everything
You're the world to me
You're my song to sing
Perfect harmony
You're my everything
You've set my heart on fire

I love to seize the first day that I kissed you Do never leave, I never wanna miss you I'll do anything, no one will ever love you better These words of love, I wrote you in a letter

You'll always be the heart of my desire When we touch the flames are even higher I shiver inside, can't deny the magic power I need your loving, every minute, every hour

I wanna be your one and only lover
I'll make you see, we belong to one another
My affection is strong, much deeper than the ocean
Flyin' high, high on emotion

Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
You know it's true

Baby I was made for loving you I'm addicted to your love forever Hope you feel the same affection, too I was made for loving you

We'll survive the highs and lows together I will shelter you from stormy weather I will always make your dark sky blue I was made for loving you

My baby

I wanna be the victim of your lovin'
Do never stop the burning [Incomprehensible]
[Incomprehensible], I'll never wanna hurt you
You'll understand, I'll always be there for you

I wanna be your one and only lover
I'll make you see we belong to one another
My affection is strong, much deeper than the ocean
Flyin' high, high on emotion

Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
It's everything you do

Baby I was made for loving you I'm addicted to your love forever Hope you feel the same affection, too I was made for loving you

Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
You know it's true

Baby I was made for loving you I'm addicted to your love forever Hope you feel the same affection, too I was made for loving you Made for loving you

We'll survive the highs and lows together I will shelter you from stormy weather I will always make your dark sky blue I was made for loving you I was made for loving you
