

Grey Notes Fall

No Motiv

Tell me we're moving on
Nothing can change the way I feel about you now

So I'm told now every night I'm watching
As days fall closer and closer
While we both are here to stay
We again must part to save
Something we have made that's built to last

Now we go in opposite direction
Resurrect those walls that we have both erected
Out and into grey we're on stand-by once again
Tell me anything just don't

Tell me we're moving on
Nothing can change the way I feel about you
Tell me oh I thought you knew
I'll be away but you'll be with me always

Believe me when I say this I mean it
As time takes forever I'll wait
For the day we both arrive to the climax of our lives
And that's good to know
Though I'll be leaving you
We'll carry on and into shades of grey again

Facing what was said
Looking back when
All that's left to do for us is look ahead
So tell me anything but just don't
Tell me we're moving on
Nothing can change the way I feel about you
Tell me oh I thought you knew
I'll be away but you'll be with me always
