

# Far from Over

No Resolve

It's far from over

You're so vacant  
That's how you survive  
No one knows you're alive this time  
But you made it, now we define  
Who you are and why you're high

You're addicted  
You get what you can  
The clinic on the corner's  
Putting drugs in your hand

You're caked up  
And everyone knows  
Who you are  
And where you go

I got you alone  
Just like I wanted to  
Your screams are in stereo  
They fall on deaf ears

If you could just hear me  
Pretend the ending  
At least we're still breathing air  
It's far from over

You're a let down  
You've been gone for a while  
But being dirty's just a part of your style

You're spaced out  
Keep telling the lies  
Of who you are and why you're high

You burned up  
All of the ties  
Your mother barely ever  
Looks at you in the eyes

Your father  
He doesn't care  
Who you are  
Or why you're there

I got you alone  
Just like I wanted to  
Your screams are in stereo  
They fall on deaf ears

If you could just hear me  
Pretend the ending  
At least we're still breathing air  
It's far from over

It's far from over

I got you alone  
Just like I wanted to  
Your screams are in stereo

I got you alone  
Just like I wanted to  
Your screams are in stereo  
They fall on deaf ears

If you could just hear me  
Pretend the ending  
At least we're still breathing air  
It's far from over

It's far from over
