

Love Me to Death

No Resolve

You are the cell that keeps me caged
You are the wrath that feeds my rage
The moment of doubt in all my faith
The reason I stay

Drawing me in with every breath
Leading with hands around my neck
Whatever you want is what I get
Don't ever forget

Cause no one can break me like you do
All of the hell you put me through
The more that I fight the more I lose
I'll always surrender, forever

When we make love it's torture
Rip my heart from my chest
Just when I think it's over
You love, love me to death

Love, love
Love me to death
Love, love
Love me to death

Give me the high that keeps me low
My only drug, my antidote
Feed my obsession, make it grow
You have control of me

Cause no one can break me like you do
All of the hell you put me through
The more that I fight the more I lose
I'll always surrender, forever

When we make love it's torture
Rip my heart from my chest
Just when I think it's over
You love, love me to death

Love, love
Love me to death
Love, love
Love me to death
Love, love
Love me to death
Love, love
Love me to death

When we make love it's torture
Rip my heart from my chest
Just when I think it's over
You love, love me to death

Love, love
Love me to death
Love, love

Love me to death
Love, love
Love me to death
Love, love
Love me to death
