

So Alive

No Resolve

This question I'm asking
Are you sure it's the way
These words that interpret
The way you look at me

Cause we're lost in translation
And I need to know

I want to build you up
I need to know
What it is that brings you down
(That brings you down)
If you just stand up
Open your eyes
See the world is so alive
(World is so alive)

This answer you're after
It's always the same
Your motions, reactions
Always give you away

Cause I'm lost in your thoughts
And I need to know

I want to build you up
I need to know
What it is that brings you down
(That brings you down)
If you just stand up
Open your eyes
See the world is so alive
(World is so alive)

I want to build you up
I need to know
What it is that brings you down
(That brings you down)
If you just stand up
Open your eyes
See the world is so alive
(World is so alive)

I want to build you up
I need to know
What it is that brings you down
(That brings you down)
If you just stand up
Open your eyes
See the world is so alive
(World is so alive)
