

This Is War

No Resolve

No, you're never gonna lie to me
Your mouth moves but you never speak
And nobody can fuck with me
So get up, get up, or get out

I know you're scared of catastrophe
Paranoid when you feel the heat
We'll start a riot, 1, 2, 3
So get up, get up, or get out

(WAR!)

We're starting an eruption
I feel the fire burn inside of me
Killing the corruption
Still holding on, holding on
(THIS IS WAR!)

It's annihilation
Hell is in the air, it's hard to breathe
Sick of all the hatred
So I'm holding on, holding on

In the trenches stuck
We've gone too far
Are you ready to die?
THIS IS WAR!

When every step you take is do or die
When every breath you take is filled with lies
And you can't deny
You're feeling like you're paralyzed
So, it's time to settle the score
This is war

No, you'll never get the best of me
Shut up when I speak
You're all talk but the walk is cheap
So get up, get up, or get out

Time to face the reality
I'm the monster from your dreams
You don't want to see this side of me
So get up, get up, or get out

(WAR!)

We're starting an eruption
I feel the fire burn inside of me
Killing the corruption
Still holding on, holding on
(THIS IS WAR!)

It's annihilation
Hell is in the air, it's hard to breathe
Sick of all the hatred
So I'm holding on, holding on

When every step you take is do or die
When every breath you take is filled with lies
And you can't deny

You're feeling like you're paralyzed
So, it's time to settle the score
This is war

Can't hold us down, we are electrified
Surrender everything or say goodbye
And you're terrified
Yeah, I can see it in your eyes
So it's time to settle the score
This is war

(This is war)

In the trenches stuck
We've gone too far
So get ready to die
THIS IS WAR!

When every step you take is do or die

(Filled with lies)
And you can't deny
You're feeling like you're paralyzed
So, it's time to settle the score
This is war

Can't hold us down, we are electrified
(Electrified)
Surrender everything or say goodbye
(Say goodbye)
And you're terrified
Yeah, I can see it in your eyes
So it's time to settle the score
This is war
