

UNKILLABLE

No Resolve

I met the Devil, he wanted me dead
But instead I put a motherfucking bullet in his head! Yeah!

You broke me down, the cuts and the bruises
I hold the knife now, I'm cutting my nooses
I wear the blood stains like badges of honor
I'll take every bullet because I'm a survivor, bitch!

It tore right through me like a bullet to the chest
Cut me deeper than a knife against the neck
I'm suffocating, will I ever catch my breath?
Fighting the undertow, dragging me down below
But I'm unkillable!

I'm rising up, reborn from the ashes (yeah!)
Coming for blood, now I'm facing the madness
I swear the next time me and the Devil meet...
I won't be the one buried 6 feet deep

It tore right through me like a bullet to the chest
Cut me deeper than a knife against the neck
I'm suffocating, will I ever catch my breath?
Fighting the undertow, dragging me down below

It tore right through me like a bullet to the chest
Cut me deeper than a knife against the neck
I'm suffocating, will I ever catch my breath?
Fighting the undertow, dragging me down below
But I'm unkillable!
