

97RAGER

No Rome

I can see you're scared
I see you're mortified
Something in your eyes
No you can't deny
Bullet through the glock
Now you're traumatised
"It's all behind your mind
All behind you man"

Fickle little bone
Are you going home?
Changing all your dances
And all your glances
No need to disguise
You been traumatized
But it's all behind you now
All behind you now

It's all behind your mind
All behind you now
It's all behind your mind
All behind you now

Step it!

Dreamer's drug dealer (hey!)
Pushing to the clip might kill ya (uh-huh)
Real love you adore, do you feel her?
It's all behind your mind
All behind you now

Bottom of the cup
Finish up the blunt
Don't go any deeper
Cause you're almost out of luck
Tell me what it feels like?
It doesn't even feel right anymore

It's all behind your mind
All behind you now
It's all behind your mind
All behind you now
