

Deep Diving

No Rome

I know you are
Crazy sometimes
But it's fine by me

Wake up just to go to sleep
If you're my angel, this is what you need
I could be your therapist
Talking about the places where you'd rather be
Never hear a thing that you're lecturing
But talking about it makes you weak
Staying quiet just for courtesy
But when you come around, arms wide open

Always on my watch
You call me in the night
I'll be by your side, my love
When I'm not around, you feel all alone
'Cause you've never been away on your own

Tell you what, these diamonds
Don't last forever but keep shining
On the edge, deep diving
You make me nervous, my teeth grinding

Tell you what, these diamonds
Don't last forever but keep shining
On the edge, deep diving
You make me nervous, my teeth grinding

Tell you what, these diamonds
Don't last forever but keep shining
On the edge, deep diving
You make me nervous, my teeth grinding

Tell you what, these diamonds
Don't last forever but keep shining
On the edge, deep diving
You make me nervous, my teeth grinding

I know you are
Crazy sometimes
But it's fine by me
