

# Spinning

No Rome

Found you at four in the morning  
Confidence soaring  
Thought you moved onto a new thing  
But you keep it revolving  
I look so good dressed in nothing  
You ended up falling  
I never needed your shelter  
I'm good with no warning  
My love like a city  
All night, everywhere  
You love being with me  
You never forget  
24/7 in Heaven  
No, nothing compares  
Thought you'd get over the feeling

But you just keep spinning over there  
Spinning over there, spinning over there  
But you just keep spinning over there  
Spinning over there, spinning over there  
'Cause you just keep

You must be feeling the pain  
You must be wondering  
Amphetamines in your brain  
Maybe you're suffering  
I must be causing your pain  
I bet you feel the same  
But you never regret a thing  
'Cause the game feels so good to win, darling  
Yeah ooh, you just keep spinning

Yeah, you just keep spinning over there  
Spinning over there, spinning over there  
'Cause you just keep spinning over there  
Spinning over there, spinning over there  
'Cause you just keep

My best friend told me the same  
Forgot that I had one  
I'm on my knees and I pray  
I shouldn't have mentioned  
I'm back here after the States  
In luck that we catch up  
But I know that you fucking around  
'Cause I know you're with it

You just keep spinning over there  
Spinning over there, spinning over there  
'Cause you just keep spinning over there  
Spinning over there, spinning over there  
'Cause you just keep spinning over there  
You just keep
