

## Talk Nice

## No Rome

Pour me a glass of wine  
Tell me to take my time  
Caught in the moment  
I know, I know, I know  
What's on your mind?

Lately I feel the same  
Life has a price to pay  
Can we afford it  
I know, I know, I know  
What's been on mine?

Late night  
Talk nice  
About what we have and don't  
Made it  
Sunrise  
You're crying on the phone  
Lately I feel the same  
Life has a price to pay

But it'll cost ya, it'll cost ya, it'll cost ya

Money over everything, over everything  
She's been thinking 'bout the same things, of the same things  
Money isn't everything, isn't everything  
But you've been thinking 'bout the same things, of the same things

(Hey)  
(Uh)  
(Uh)

Where do we go from here  
Go where the air is clear  
We got each other  
Tell me simple things are ever enough

Late night  
Talk nice  
About what we have and don't  
Made it  
Sunrise  
Still crying on the phone  
Living the dream  
We cut our teeth  
Thought I told you baby

This will cost ya, this will cost ya, this will cost ya

Money over everything, over everything  
She's been thinking 'bout the same things, of the same things  
Money isn't everything, isn't everything  
But I've been thinking 'bout the same things, of the same things

(Hey)  
(Uh)  
(Uh)
