

Well, she do whatever she like  
That just don't seem right  
You make people so mad  
They want us so bad, woah

We was fuckin', almost missed my flight  
I wasn't even trippin', I said "It's alright", yeah  
But goddamn, we was here last night  
Wouldn't you rather get along?  
Wouldn't you rather get along?

You was coughin' when you're hittin' the weed  
But I never seen you feel that free  
You're so cute, you wanna be like me  
Wouldn't you rather get along?  
Wouldn't you rather get along?

Until, until it hits no longer  
Let's get lost inside the clouds  
And you, you don't gotta work harder  
I can calm it down

Well, I was busy when you hit my phone  
But you miss me, tell me "Come back home"  
Yeah, you don't really like to sleep alone  
But I'm takin' too long  
I'm always takin' too long

Baby, we don't need a trip, we could be right here  
When the shit get real, we can switch up gears  
I wanna see them lips kissing me at the ear  
I wanna hear your song

Oh, I wanna feel just how you feel  
Touch you one more time, so I know you're real  
We can spin our wheel, wouldn't you rather get along?

Until, until it hits no longer  
Let's get lost inside the clouds  
And you, you don't gotta work harder  
I can calm it down

I think we just might be alright, thank God  
I think we gonna be alright, alright, okay  
Mmm, hold me close, don't hold your breath  
This feeling your favorite  
Oh, I know, I know, I know, I know
