

## Ready to Go

Noah Cyrus

I've lost all the words, feels like my heart's been tied up  
Wait till it hurts, never can choose  
Is it what I deserve? To spend in the last of my love  
On someone I knew that I'd always lose

I stay, we'll burn  
Till you leave first

So go  
If you're ready to go, yeah, make your move, no, I won't follow  
It's inevitable and we both know that we're on borrowed  
Time, move faster and far, it flies  
If you're ready to go, yeah, make your move, no, I won't follow

If you're ready to go, if you're ready to go  
If you're ready to go, if you're ready to go

I can't look at you or see past the ink on your face  
The smoke in the room is stinging my eyes  
'Cause there's too many memories getting the best of me  
I loved you first but you'll be the first to leave

I'll stay, we'll burn  
Till you leave first

So go  
If you're ready to go, yeah, make your move, no, I won't follow  
It's inevitable and we both know that we're on borrowed  
Time, move fast and far, it flies  
If you're ready to go, yeah, make your move, no, I won't follow

If you're ready to go, if you're ready to go  
If you're ready to go, if you're ready to go  
If you're ready to go, yeah, make your move, no, I won't follow  
If you're ready to go, if you're ready to go

Ah, ah (Ah, ah, I)  
If you're ready to go, yeah, make your move, no, I won't follow  
If you're ready to go  
If you're ready to go, if you're ready to go  
If you're ready to go, if you're ready to go  
If you're ready to go, if you're ready to go  
(Ah, ah, ah, ah)
