

## With You

Noah Cyrus

Look around you, feel it in the air  
Look around you, knowing that I care  
Just listen in the wind  
Know that I'm your friend and always with you  
Thinkin' 'bout the time we shared  
Good with all the bad we bared  
And I miss you

Teardrops fell like rain  
Loneliness with the pain  
If only I could be with you tonight  
But I guess it's against the rules  
For lovers who are fools  
Knowing that two wrongs  
Don't make a right

If only I could change time and be with you  
If only you could be the light I never knew  
But we both know that there's no way  
And there'll never ever come a day  
So just know inside through this lonely life  
That I'm with you

Look around you, feel it in the air  
Look around you, knowing that I care  
Just listen in the wind  
Know that I'm your friend and always with you  
Just thinkin' 'bout the time we shared  
Good with all the bad we bared  
And I miss you

Thinkin' 'bout the time we shared  
Good with all the bad we bared  
And I miss you
