

# All My Love

Noah Kahan

How have things been? Well love, now that you mention it  
My folks still talk but they speak in these two word sentences  
I'm saying too much but you know how it gets out here  
No winter coat could keep out all the cold of your atmosphere

And we once sang  
Retrograde  
We'd shake the frame of your car  
Now I know your name but not who you are  
It's all okay, there ain't a drop of bad blood  
It's all my love  
You got all my love

I'm still out here  
With the pills and the dogs  
If you need me dear, I'm the same as I was  
It's all okay, there ain't a drop of bad blood  
It's all my love  
You got all my love  
You got all my love

Write me a list of how it is  
Of how it was, of how it has to be  
You burrowed in under my skin  
What I'd give to have you out from me

But I still recall  
How the leather in your car feels  
And at the end of it all  
I just hope that your scars heal

And we once sang  
Retrograde  
We'd shake the frame of your car  
Now I know your name but not who you are  
It's all okay, there ain't a drop of bad blood  
It's all my love  
You got all my love

But I'm still out here  
With the pills and the dogs  
If you need me dear, I'm the same as I was  
It's all okay, there ain't a drop of bad blood  
It's all my love  
You got all my love  
You got all my love

Well I leaned in for a kiss  
Thirty feet from where your parents slept  
And I looked so confident  
Babe I swear I was scared to death

My hands gripped the wheel  
I smiled stupid the whole way home  
Well those five words in my head you said  
"I'll never let you go"

And I sang  
Retrograde  
We'd shake the frame of your car  
Now I know your name but not who you are  
It's all okay, there ain't a drop of bad blood  
It's all my love  
You got all my love

And it's still out here  
With the pills and the dogs  
Wind chill this year  
Stole the words from my tongue  
It's all okay  
There ain't a drop of bad blood  
It's all my love  
You got all my love  
You got all my love  
You got all my love  
You got all my love  
You got all my love
