

Howling

Noah Kahan

Where to begin? Oh, let's pretend we never met so I can disappear a moment
Been tryna swim with both my hands behind my back, my dear, I always feared
the ocean
And somehow this one word in my mouth was left unspoken
And I won't admit my parents split when I got sick but I'll refuse to be a b
urden

And I said
Is there something keeping me here for the minute, darling?
Did you find the key and what is the meaning of it?
'Cause honey, sometimes I feel this emptiness
Howling out

Is there something keeping me here for the minute, darling?
Did I lose my mind and am I still looking for it?
'Cause I don't know why I feel this emptiness
Howling out
Howling out

You're not alone, the world is small and I am sick of all the talk of findin
g purpose
Love comes and goes but the big black dog, he trails along, am I the only on
e who knows him?
Now, and somehow I gained fifteen pounds but lost my focus
And I suffocate things slow until I'm just a black fly circling my bullshit

Oh
Is there something keeping me here for the minute, darling?
Did you find the key and what is the meaning of it?
'Cause honey, sometimes I feel this emptiness
Howling out

Is there something keeping me here for the minute, darling?
Did I lose my mind and am I still looking for it?
I don't know why I feel this emptiness
Howling out
Howling out

Deep blue, deep blue, 05072
Deep blue, deep blue, 05072

Where to begin? Oh, let's pretend we never met so I can disappear a moment
I've been tryna swim with both my hands behind my back, my dear, I always fe
ared the ocean

And I said
Is there something keeping me here for the minute, darling?
Did you find the key, then what is the meaning of this?
'Cause honey, sometimes I feel this emptiness
Howling out

Tell me one thing keeping me here for the minute, honey
But if I leave you now then what's out there waiting for me?
I don't know why I feel this emptiness
Howling out
Howling
