

Maine

Noah Kahan

Tell me lover
Now that you made your change
Was your soul rediscovered?
Was your heart rearranged?
Are you still take your pills in the morning?
And did you lose that longing now?
For a walk through an ocean town
Cuz this town's just an ocean now

You don't hate the summers
You're just afraid of the space
Asking strangers for answers
To forget what they say
A boat beside a dock in the sunlight
Nothing but the water and the sunrise now
Just a lack of an open mouth
Cuz this town's just an ocean now

Bad
I miss this place, your head and your heart
And my dad
Still tells me when they're playing your songs
Laughing at the way
That you would say
If only baby there were cameras in the traffic lights, they'd make me a star
They'd make me a star

I wanna go to Maine
I wanna go to Maine

Bad
I miss this place, your head and your heart
And my dad
Still tells me when they're playing your songs
Laughing at the way
That you would say
If only baby there were cameras in the traffic lights, they'd make me a star
They'd make me a star

I wanna go to Maine
I wanna go to Maine

You tell me lover
Won't you fight a change of heart
Cuz we're no more than the fossils
On Crescent Beach State Park
And we used sing along to church bells on Sundays
And can you even hear them from the subway now?
And I hope that we make you proud
Cuz this town's just an ocean now
