

Wherever You Are

Noah Schnacky

Yeah I tried to track you down
I didn't really get too far
I wonder what you're up to now
I'm down wherever you are
Yeah it just hits me sometimes
I hope I still cross your mind
'Cause you've been all over mine

Wherever you are
Tennessee or Texas
Bet you're looking drop dead
Got them boys falling apart
Are you killing it in OK, Alabama, LA?
Bet you're outshining them stars
Whatever town you're in
Don't matter where it is
I know it don't feel that far
'Cause there's always a piece of my heart yeah
Wherever you are

Yeah I've just been hanging out
Finally got back on my feet
Not much to talk about
Wake up, work, sleep, eat and repeat
Still playing out the same house
On the same little dead end street
In case you ever think about coming back to me from

Wherever you are
Tennessee or Texas
Bet you're looking drop dead
Got them boys falling apart
Are you killing it in OK, Alabama, LA?
Bet you're outshining them stars
Whatever town you're in
Don't matter where it is
I know it don't feel that far
'Cause there's always a piece of my heart yeah
Wherever you are

Yeah it just hits me sometimes
I hope I still cross your mind
'Cause you've been all over mine

Wherever you are
Tennessee or Texas
Bet you're looking drop dead
Got them boys falling apart
Are you killing it in OK, Alabama, LA?
Bet you're outshining them stars
Whatever town you're in
Don't matter where it is
I know it don't feel that far
'Cause there's always a piece of my heart yeah
Wherever you are
