

# Here Lately

Noah Thompson

## Verse 1

I've been using alcohol to smooth out all the edges  
My two feet can't even figure out what my next step is  
Last week I put down the drink  
Poured the last half down the sink  
And it seems that lately

## Chorus

I've been breathing  
Hell, I still have sleepless nights  
But I've been thinking  
That it's gonna be alright  
I was almost too far gone  
Good Lord's bringing me back home  
To where these eyes could cut through all the crazy  
So I've been here lately

## Verse 2

I forgot what it was like to stop and smell the roses  
And it turns out when you slow down you remember where you're going  
I've got friends pushing daisies up  
Can't stand to lose the ones I love  
That saved me, so here lately

## Chorus

I've been breathing  
Hell, I still have sleepless nights  
But I've been thinking  
That it's gonna be alright  
I was almost too far gone  
Good Lord's bringing me back home  
To where these eyes could cut through all the crazy  
So I've been here lately

## Bridge

I've been trying  
Can't say it ain't been tough  
But man, I finally  
Feel like things been looking up

## Chorus

I've been breathing  
Hell, I still have sleepless nights  
But I've been thinking  
That it's gonna be alright  
I was almost too far gone  
Good Lord's bringing me back home  
To where these eyes could cut through all the crazy  
So I've been here lately  
Yeah, I've been here lately
