

She Gets It From Me

Noah Thompson

Got that temper from her daddy, her eyes from her mama
That tattoo on spring break down in Daytona
Got a curve in her words from growin' up in Texas
Safe in her soul from that cross on her necklace

Oh, if we're goin' down that checklist
Yeah, what I love best is

That stay out too late and a taste for good whiskey
Laugh when it hurts and bad words when she's tipsy
The hands she can hold and a life full of memories
Every wish, every kiss, yeah, she gets it from me
Day or night, rain or shine, yeah, she gets it from me

Learned a little bit about gossip from her from her friends back in college
Won't admit it, but she loves drama from the shows that she watches
Shout out to her ex for showin' her what love isn't
And givin' me the chance to give it

That stay out too late and a taste for good whiskey
Laugh when it hurts and bad words when she's tipsy
The hands she can hold and a life full of memories
Every wish, every kiss, yeah, she gets it from me
Day or night, rain or shine, yeah, she gets it from me, yeah

That "baby, you're perfect" when she don't feel pretty
Hair in a mess and my shirt that don't fit me
The hands she can hold and a life full of memories
Every wish, every kiss, yeah, she gets it from me
Day or night, rain or shine, yeah, she gets it from me

Oh
Yeah, she gets it from me
Day or night, rain or shine, yeah, she gets it from me
