

My Situation

Noah

Sadness in your tears, I'm fading in
My heart goes numb, awake in chains
We tried to reappear, like fools rush in
This changing life we can't explain

To give you space to leave my place
As evening comes I leave no trace
No winters gone without a sign
I'm falling away into despair

Can we keep holding on

In my situation oh...
Heart can't be free to love
In my situation life is an empty dream

Oh this lovers kiss falls into abyss
Like shattered glass we cannot last
How the story ends, we can't be tent
We're crawling away into despair

Can we keep holding on

In my situation aah...
Heart can't be free to love
In my situation life is an empty dream
In my situation (ooh) fears keep me hangin' on
In my situation
I can't keep holding on

In my situation heart can't be free to love
In my situation life is an empty dream
