

## New Beginning

Noah

Lately all I can see  
Is the wreckage you left when you fled the scene  
Smoke and fire  
Darkening the city I knew that you stole from me  
Staining all our memories  
That used to be so holy

Please tell me there's a new beginning coming up with the sunri  
se  
Holding out for a happy ending  
And it's gonna be alright  
Please tell me there's a new beginning  
And it's going to be alright

Tryin' to find a song to sing  
One true light so the storms will cease  
But we fall apart so easily  
I need someone to save me

Please tell me there's a new beginning coming up with the sunri  
se  
Holding out for a happy ending  
And it's gonna be alright  
Please tell me there's a new beginning  
And it's going to be alright

Some day we'll be closer to loving each other  
The way that it should be  
The streets that divide us  
Will join and unite us  
You've gotta believe

Please tell me there's a new beginning coming up with the sunri  
se  
Holding out for a happy ending  
And it's gonna be alright  
Please tell me there's a new beginning  
Coming up with the sunrise  
Holding out for a happy ending  
And it's gonna be alright

Please tell me there's a new beginning and it's gonna be alrigh
