CHASING DAYLIGHT

NOAHFINNCE

Take care love
Dark nights can be lonely without a home
I will climb inside your fears take the beatings for my own
If I'm able

Take care love
Dark nights can be lonely
Without a home
Dark nights can be lonely

Oh where did you go?
This happens every time
Can't help but think that I'm chasing daylight

You're stuck on your own
This happens every night
Can't help but think that I'm chasing daylight

Take care love
Dark nights can be lonely
Without a home
Dark nights can be lonely

I'm ready to go
I'd take a leap anytime
Just tell me when and I'm chasing daylight

You're stuck on your own
This happens every night
Can't help but think that I'm chasing daylight

Take care love
Dark nights can be lonely without a home
