

# Clearview

NOAHFINNCE

Yeah, yeah

Run, but you're looking right  
Cut scene but I know that I'll heal fine  
Let me on, better look alive  
'Cause I seen who you been on the inside  
I know now you been hiding  
You act like you're loyal, you're lying  
I finally see the reason I've been lo-lo-lost  
Let me be the one to break it all all off

Not one for the repeat, better let it go  
You're not gonna see me, tires hit the road  
But you're gone in my rear view  
Finally got a clear view  
I'm not one for the repeat, better let it go  
You're not gonna see me, tires hit the road  
But you're gone in my rear view  
Finally got a clear view

Missing calls, if I see you made  
Just delete all the pics, they don't look the same  
And I'm not up at night  
Thinking 'bout the past 'cause the future looks bright  
Quit talking (quit talking), stop trying (stop trying)  
You act like you're loyal, you're lying  
I finally see the reason I've been lo-lo-lost  
Let me be the one to break it all all off

Not one for the repeat, better let it go  
You're not gonna see me, tires hit the road  
But you're gone in my rear view  
Finally got a clear view  
I'm not one for the repeat, better let it go  
You're not gonna see me, tires hit the road  
But you're gone in my rear view  
Finally got a clear view

I see right through  
I see right through you  
I see right through  
I see right through you  
I see right through  
I see right through you  
I see right through  
I see right through you

I see right through  
I see right through you  
I see right through  
I see right through you  
I see right through  
I see right through you  
I see right, I see right  
I see right through you

Through you

Through you  
I see right, I see right  
I see right, I see right through you  
I see right, I see right  
I see right, I see right  
I see right, finally  
I see right through you
