

I JUST WON'T CARE

NOAHFINNCE

I started skipping breakfast
Don't have enough time
Thinking of acting reckless
But I'm a bit shy

Sleeping and eating and just forgetting to breathe
Has been taking its toll on me
If I'm loving myself or just neglecting my health
Either way I'm fucked oh well

I just won't care
The days I've got in front of me
Are sucking out my energy
I'm drained right now
And honestly
I just don't care

I'm bad at keeping track of my medication
That might explain the lack of my motivation

Sleeping and eating and just forgetting to breathe
Has been taking its toll on me
If I'm loving myself or just neglecting my health
Either way I'm fucked oh well

I just won't care
The days I've got in front of me
Are sucking out my energy
I'm drained right now
And honestly
I just don't care

Overworked
Overwhelmed
Over everything
Lost myself in the job I can barely breathe

Overworked
Overwhelmed
Over everything
So I just tell myself the same fucking thing

I just won't care
The days I've got in front of me
Are sucking out my energy
I'm drained right now
And honestly
I just don't care
