Soon as we land, girl, we jumpin' on another plane
I'll take you 'cross the world and hope you forget everything
Yeah, yeah

Go to war for love, I'm a soldier
Don't nobody wanna die sober
Not on the same planet, I been movin' up
Aliens tryna ban me from Jupiter
I'ma glow if they hit the lights in this club
I'ma go if they hit the lights in this club

Check the motor, nigga, went and put my hood on flex
Ten bad bitches tryna take one X
I came to have a good time, ain't worried 'bout the sex tonight
UFO wouldn't crank up, I had to take the jet tonight
Burnin' my sheets, money don't come if you sleep, oh
This party free, but you can't come in if you ain't geeked off drugs

When I first had met you, you had told me you don't drink
Then I had walked in and seen you swimmin' in champagne
I wanna put your ex in a box, but, nah, I respect it, gang

You wanna tell me that I'm great, but you protectin' your pride
They say it's easier to lose when it's a lot on your mind
I can take my whole environment and put 'em in line
It's kind of easier to tell you that I'm one of a kind
If everyone in here is you, then it's hard to choose
If everyone in here is you, then it's hard to choose
If everyone in here is you, then it's hard to choose
I know whatever in your cup'll make you forget the night
You know whatever in my cup, I'm takin' chances with life, mm
Bartender can't serve this, tell the ambulance to hurry
When I see you, it's an emergency
When I step, I leave paws and snakes all on my shoes, this is Gucci o
n your carpet
Pull off in that Honda and come back in a Ferrari

Check the motor, nigga, went and put my hood on flex
Ten bad bitches tryna take one X
I came to have a good time, ain't worried 'bout the sex tonight
UFO wouldn't crank up, I had to take the jet tonight
Burnin' my sheets, money don't come if you sleep, oh
