

Dead Faces

NoCap

Ain't talkin' soap but they gettin' the dial tone
We born, live, then die alone
I was dead broke, I seen Ben Franklin in the casket
The world was sleepin' on me, it was Earth under my mattress
Get high off a new opp
I flushed all the moonrock
I throw back some Roxies
We geeked out our bodies

Everyone I love, they leave
Make me want to kidnap trees
We in and out the court, but I'm not in the league
Your bitch just a rebound but I'm not Embiid
Wish I could get my dawg back, but I ain't a flea
All I saw was death, now I got more hits than Jermaine Dupri
Got more juice than a bitch, might name my son Capri
I blocked her seven days because her head was weak

Margielas new but they look dirty
Rylo not hurt but he in jury
Empty the clips and pull off full speed
They was bitin' my style so I bought new teeth
Less graduations and more funerals
Less graduations and more cell doors
Yea, less graduations and more court dates
Yea, less graduations and more gunplay
Old homies gon' change I been knew
This clip got an extension my bitch too
Got my pistol and my rubber I'm protected
Only time I really love her when she naked

Only time I really love her, when she naked
When I get bored, I watch my diamonds skate like Trukfit
My dawg a crip, at each birthday I buy him a blue pit
He wanna make 'em fight, I pray he won't end up havin' to shoot
