NoCap

Came in, and I'm 'a leave by myself  
When I left, I didn't care what they said about me  
I know they didn't believe I would be here  
Even at my lowest, I told 'em never doubt me  
Niggas tried, then them niggas started dying  
I bet them niggas won't play no more  
Make sure I'm shooting with my eyes open  
I'm tryna leave them niggas casket closed

If you was to do me right, you would've never left  
And I promise you don't get right, you getting left, with them  
Walked out that concrete jungle by myself  
I'm starting to think these niggas are better off dead, without me  
Walk in that bitch just like I own it, no cosign  
I ain't talking baby, but he came out at 4 pounds  
Some my niggas gotta get high, just get low down  
I hope my killer look me in my eyes, and make no sound  
You turned yo back on me, I want it back on you  
I had all that ice on, I ain't finish school  
Ma I know you proud, though I ain't been the best to you  
Some niggas turned their back on me, what I do to you?  
Promise that I'll go all head shots  
I promise that I'll go all head shots  
Promise I hit you in yo dreadlocks  
Came inside it with no handouts

Came in, and I'm 'a leave by myself

I bought my last bitch rose gold  
I think I gave her too much info  
'Cause she had seen me pay Lil Joe  
To go and cut a opp nigga throat  
Aye, don't forget I live in space, I'm on a different time  
I'm in the front, I still won't let them niggas sit behind me  
'Cause I done gave niggas hope, let my partner shake 'em up  
I'm here to tell you it get real slimy  
Aye, we play that boy like cards, they're asking bout murder charges  
Told that bitch, "No recording." Love kill more than poison  
Alone but I'm hearing voices, now we got more than choices  
Country, I'm pulling up horses, I'm not a regular artist  
I come from the gutter, it scarred me, demons they're with me regardless  
Buy that little boy, ain't no bargain, we got more Glocks than a army  
Sit in that cut like some ointment  
And I didn't ever ever need you  
'Cause I
