NoCap

Ooh...

Yeah

Ain't got to tell you about my story, you see it in my eyes  
I feel like drugs the only thing that help me feel alive  
It feel strange when all their eyes on you  
You'll probably love me when I die won't you?

Too many snakes around, kill all the pythons  
(Yea) I can do anything, but I can't die young  
(Yea) Spent two racks on shoes, niggas get stepped on  
They telling me stay up out the streets Cap you a legend

So high right now, I fucked around and slapped a eagle  
Say his gun to hot, he hide his forty in the freezer  
My partner got keys, but I'm on beats like I'm Alicia  
Trap boom on Sundays, I think my niggas serving preachers  
I can tell you my lifestyle  
Some shit you never knew  
In the hood we hang out  
Cause it ain't none else to do  
Why all my soldiers dying?  
I'm losing all my troops  
Moment of silence...  
Everybody stand and salute  
Medication the only thing that help me get through  
They say they with you but they really there to help you lose  
Go a different route, try to stay from round them  
Slim trust his partner, look how they found him  
Gave that hoe the boot like I work at Ingalls  
Always keep my iron even when my clothes wrinkled  
I-Robot, I'm not human either  
I feel like Will Smith, I am a legend

Ain't got to tell you about my story, you see it in my eyes  
I feel like drugs the only thing that help me feel alive  
It feel strange when all their eyes on you  
You'll probably love me when I die, won't you?

I'm getting use to hate  
Love come around me, that shit don't feel right  
Counting these Jacksons like I'm lil Mike  
Fitted jeans on, make the bankroll fit right  
I know it's a dream, this can't be life  
Red on the bottom, I came from G Nikes  
I didn't have nothing to give I still gave it all  
I'm always taking drugs, I cannot control  
Trap house, we out the dope hole  
I can't go broke, cause I hate the Po-Po's  
You never know, so you gotta pay close... Attention  
Nigga tried to dap me up  
The five ain't look right on Jameis Winston

She don't never use her teeth  
I think she dumb, she need some wisdom  
If I keep saying fuck the narcs  
That's gone probably make the FEDs come  
Birds of a feather flock together  
They all laying when the bread come  
They load up all them Glocks, they hit your door and they don't need a key  
Could've sworn that I seen this shit before, I'm not with PRE  
Vest on his chest, he ready to go to war his momma bought him soldier Ree's  
I'm riding by myself, or the devil  
Until Lil Joe is free

Ain't got to tell you about my story, you see it in my eyes
