

Miss U Already

NoCap

Yea

I just got a call that my dog got shot
No matter who I meet they'll never take your spot
Forever on my mind
Forever on my heart
And I just lost my dog he's never coming back
Remember when we used to go tit for tat
Oh what I wouldn't give to get it back
I miss you already

Why

Know that you hate to see me cry
But I can't shake this feeling
This can't be part of healing
I never get to feeling like this often
Fucked me up I seen my dog in a coffin
Who knew that all of this will come from stealing and robbing
I lost my man's I was Batman he Robin
We was mobbin

Fuck The opposition cause they took you
Promise I'm stepping on them niggas in my new shoes
These niggas telling giving blues clues
Whatever we did I'm taking to the grave it's me and you
I would do anything to see you smile again
My dog for life my twin
Not too many niggas in this life I call friend

I just got a call that my dog got shot
No matter who I meet they'll never take your spot
Forever on my mind forever on my heart
And I just lost my dog he's never coming back
Remember when we used to go tit for tat
Oh what I wouldn't give to get it back
I miss you already

I do anything to bring back all my niggas
We should've took you to the graveyard with us
If E ain't tucked that pill he would have been on tour with us
If C note would have never hit that dice game
He'll be right here
He'll be right here
Aye God my knees hurting
Aye God my eyes bleeding
Wonder why my life hard
Wonder why my
You on the other side where the flowers don't die
When I get alone I give up I cry
Draco he got life and two weeks ago
I miss you already
My heart rates fast race jet speed
You always send me signs well that's what I believe
Like when the wind blow through the green leaf
Like when the wind blow through these cold streets
They said it would be ok one day
And ever since then I been hoping for that one day
No one understand

Cause they ain't dealing with this heartbreak
I got so much shit to say up on this song
So I need to leave the booth before we be two days long
Cause I done dealt with so much pain it's to the point of feeling numb
I been walking through the stumps
With umbrellas and pumps

I just got a call that my dog got shot
No matter who I meet they'll never take your spot
Forever on my mind forever on my heart
And I just lost my dog he never coming back
Remember when we used to go tit for tat
I what I wouldn't give to give it back
I miss you already.

If you hear me
I miss you near me
I miss you dearly
My friend
My friend
And just in case you're watching me
I pray the lord my soul he'll keep
I hope that one day we will meet again
Meet again

If you hear me
I miss you near me
I miss you dearly
My friend
My friend
And just in case you're watching me
I pray the lord my soul he'll keep
I hope that one day we will meet again
Meet again

If you hear me
I miss you near me
I miss you dearly
My friend
My friend
And just in case you're watching me
I pray the lord my soul he'll keep
I hope that we will meet again
Meet again

I just got a call that my dog got shot
Forever on my mind forever on my heart
I just lost my dog he never coming back
We used to go tit for tat
I wish that I can get that back
I miss you already
