

That boy Cash making money, yeah

G5

Mook got the keys jumpin'

I know you only puttin' trust in that iron

Seems like your prayers just not working on time

If I stay here, I know love wouldn't find me

He go to war without an army behind him

This for them niggas posted on the corner with the clip hangin'

This for them niggas lost they niggas, know this shit get real dangerous

This for them niggas stay down just to go and get a whip payment

Draco clip, it got a curl, I nicknamed that bitch Rick James

They told me it's a crazy world but they ain't tell me insane

Money make a deal talk, pull up Bentley Mulsanne

I didn't know her name so I gave her a new name

Playground love, I like to slide and she got mood swings

Fuck you so good, you start to cry, that shit just proof, ain't it

Never too much money, it's no such thing as too famous

Told my nigga chill, chill, let the streets go

I told him chill, live, fuck the corner store, yeah

Key to the streets, nigga

Cold in the heat, nigga

Pains to my feet, nigga

Blood what I see, nigga

Blood on my knees, nigga

I know you only puttin' trust in that iron

Seems like your prayers just not working on time

If I stay here, I know love wouldn't find me

He go to war without an army behind him

This for them niggas posted on the corner with the clip hangin'

This for them niggas lost they niggas, know this shit get real dangerous
