NoCap

No one here  
I ain't have nothing there was no one here  
Baby Girl we solid them I'm sliding yea  
They got them choppas they be ringing like violins  
They be ringing out like violins  
Got them youngins out here and they wilding  
Why the fuck is they so violent yea  
Why they so violent yea

I ain't have nothing there was no one here  
I ain't have nothing there was no one here  
I ain't have nothing there was no one here

Now they tried to come back I've been dodging them  
Lil mama told she a bartender told her let me dive in her  
She said who that in the back seat I told my sprinter  
Ain't to many of them boys just ain't riding with him  
Ain't to many of them boys just ain't sliding with him  
I ain't upping that iron with I ain't open firing with them  
Them boys ain't my hittas  
Them boys ain't my hittas  
Them boys ain't go gettas  
And I ain't gon go with em  
We rolling up these back woods  
Ain't rollin up no Swishers  
She said she's all in  
If it ain't me it ain't no nigga  
I think I like the woman cause I she a go getter  
Might take her overseas  
You ever been on a boat

No one here  
I ain't have nothing there was no one here  
Baby Girl we solid them I'm sliding yea  
They got them choppas they be ringing like violins  
They be ringing out like violins  
Got them youngins out here and they wilding  
Why the fuck is they so violent yea  
Why they so violent yea

I ain't have nothing there was no one here  
I ain't have nothing there was no one here  
I ain't have nothing there was no one here

You cut me deep I put my heart on my sleeve  
I think that the streets got a hold on me  
I hope you care for me and it ain't about the money  
My kidneys acting up go see the doctor Monday  
And for the Benz  
Mam I did that for the moment  
Wanted your son back but I was on the corner  
If you came here to need love  
I don't wanna meet you  
Cold cold world gotta watch out for the freezers  
My niggas said a prayer then he sent it out to Jesus  
Tears on my nine I got blood on my sneakers  
No we suit up there's rainbows is that Rolex for real

No that time change remember back when no one was near

No one here

I ain't have nothing there was no one here

Baby Girl we solid them I'm sliding yea

They got them choppas they be ringing like violins

They be ringing out like violins

Got them youngins out here and they wilding

Why the fuck is they so violent yea

Why they so violent yea

I ain't have nothing there was no one here

I ain't have nothing there was no one here

I ain't have nothing there was no one here
