NoCap

Who would ever knew, when it rain drops it falls on you  
Who would ever knew, (yeah) the love we get evicted and the hate come thru

Even though I came from nothing, cannot embrace the fame  
Even though I came from nothing, I wanted everything  
Wasn't surprised I expected them to leave anyway  
It ain't the same when niggas die you hang with everyday

We did cornerbacks my gun ain't got no safety  
All these crooked smiles I think they need braces  
Now I spend 1500 on shoes, we used to couldn't pay the light bill  
They wanna knock me off I'm on, I'm in Off White gear  
Who was in the car with Slim? I don't know who to kill  
Imma find out real soon, Imma kill every name I hear  
When I'm doing everything wrong who the hell ima talk to?  
You was in the studio when I made Win, how the fuck I lost you?  
Kill man fasting ski mask V-Lone  
That's Cap just rapping we don't know what he on  
Do he wanna live?  
Who he gon kill?  
Cus he keep it cool even when he got heat on em  
And he signed a deal turn down a Mil he steady dropping he know that  
the streets want it  
Every song he make is for the hood, he gon sweat and cry and bleed on  
em  
Cap why you wear Filas? You don't do nothing but tell the truth  
Ain't feeling these niggas, Ima fuck around and kill a masseuse

Broken hearts  
Wounds and Scars  
It was Nate go love I watched it fall apart  
Cross said he don't remember the rari, he was on Xan X  
Now he locked behind bars  
Duke died wit his gun on him  
He ain't have a job but they said he couldn't get off  
Yea Lil Joe gon wipe yo nose you bet not sneeze  
Try to turn that Toyota Bentley keys  
Pull up Tesla and I charge the battery, and I subtract I been on Addy

I know this pain prolly never fade away  
Since a lil boy all he wanted was bodies  
Abandoned child all he thought about was run away  
The only time he smile is when he see Gunplay

Who would ever knew, when it rain drops it falls on you
