

## On Purpose

NoCap

Still taking drugs, I get faded on purpose  
Faded on purpose  
Still taking drugs, I get faded on purpose  
I don't wanna live, do me a favor and murk me  
Yeah, yeah, yeah (Ayy, bro, is that Jambo?)

Lately I'm up fighting demons that don't exist  
I'm tryna run through your mind and soul  
Something be telling me I made it barely  
So I went brown mink coat  
Sometimes your scars is way too big for the Band-Aids they give  
Ayy, sometimes I'm numb, I wish that I could count how many cups I didn't feel

And they say they need a reason to love, I don't understand because they hate on they own  
When I'm alone, I feel like I'm at my strongest, oh yeah, oh yeah, oh yeah, oh yeah  
Knew they wasn't right so a couple had got left out  
All I see is money, gave Ben Frank my left eye  
Stay strapped, I'm so fly, fifty round on the Glock, that bitch look like jet tides  
Knew I wouldn't fail, pull up in whips look like I'm test driving  
You can walk on fire, I can run on water  
Girl, I get so high that I be paranoid  
Soon as I reach for you, I can feel the world move  
'Cause you're everything, yeah

Hope you mine 'cause I be thugging you right  
And you can have the daytime, 'long as you home by tonight, love  
And if you tell me to come, I'm speeding  
You worth a million tickets easy  
I'm running through your mind, I hope you meet me for the marathon  
I'm like rest in peace to Nipsey, we spinned every block they hustled on

Fail, won't fail (Yeah)  
Don't call me (Yeah)  
In the shadows tryna burn (Oh, yeah, yeah)  
When I'm dead, dim the lights (Oh, yeah, yeah)

Lately I'm up fighting demons that don't exist  
I'm tryna run through your mind and soul  
Something be telling me I made it valid  
So I went brown mink coat  
Sometimes your scars is way too big for the Band-Aids they give  
Ayy, sometimes I'm numb, I wish that I could count how many cups I didn't feel

Hope you mine 'cause I be thugging you right
