

## Shots Fired

NoCap

Paul walker livin all my niggas so reckless  
Pull up Hellcat but I hope my dogs get to heaven  
Tryna stay alive but I've been counting dead faces  
Ride for you like a Durango graveyard bankroll  
Even though my name NoCap it ain't nowhere I can't go  
Yeah... yeah... yeah...  
All them bullets got a job and it was shots fired

Still wouldn't point no fingers if I had a damn appointment  
Extra horses in the whip I'm from the country  
I was broke and found out it ain't nothing important than money  
Did everything for the pain but it took codeine to numb me  
In the hill like Tyreek  
Rainbow Rolex Tekashi  
I let the neighborhood wear this watch  
Damn I hope nobody else saw me  
I never drunk no wine damn but I still ride around with this 40  
Mask up go in the house when the car leave  
On the block serving Nick's on my hip that's a Cannon  
My heart can't be fixed by a mechanic  
All you niggas rats mouses rattin  
I kill them with bars keep up with the Xanax  
Never keep dope where you always stay at  
I'm still counting money off cameras  
I got honchos even off the set  
It can be worse pray for the best and bow your heads

Paul walker livin all my niggas so reckless  
Pull up Hellcat but I hope my dogs get to heaven  
Tryna stay alive but I've been counting dead  
Faces Ride for you like a Durango graveyard bankroll  
Even though my name NoCap it ain't nowhere I can't go  
Yeah... yeah... yeah...  
All them bullets got a job and it was shots fired
