Yeah

I think about you all day and at night I watch the stars shoot  
I know love is not a game but I can't control what my heart do  
I fucked up so many times, I know you thinking I don't want you  
I never tell you lies, I'm always giving you the hard truth  
Remember we was way more than friends, I just wonder, "Would you love me again?"

I'm always having spaceship vibes, sometimes I think that I'm an alien
