

The One

NoCap

Long as you right under my arms
I don't care bout nothin'
Ima leave all of my chains on every time we fuckin'
And if you don't give me anything. Give me your patience
Hate havin' dreams that you left. Try to get us right situation
s
I just wanna be the one that you love
Even though you caught me cheating, I promise it ain't what it
seems
Til the sun up we make movies. I'll let you pick your favorite
scene

Fell asleep in it last night, call that a cat nap
Fuck you 5 different ways, call me McNabb
Left the knives in the kitchen, still givin' you backstabs
Hold you when we off the end, give you that tight grab
Don't move. I'm something for you to wait on
Don't move. I'm begging for you to stay home
Fendy my kicks. Plane Jane yo wrists
Want cheese like grits. Ima bite it like bits
We ain't even rich. Havin' nights like this
On a PJ lit. First flight that bitch
No TV they better watch what they say about you
No Febreze, Ima up and Ima spray about you
'Bout my chips, same time Ima lay about you
Straight jacket custom made. I go crazy bout you
When I'm not around would you hold it down?
What comes around just know it goes around
And we don't have neighbors so you ain't gotta worry about the
noise you make
I ain't goin' fishin, but tell me how much of this rod you can
take
Know its kinda wild, we call it jungle love
I can do it all, but still feel like I ain't done enough
I promise if this don't work got a feeling that I'm done with l
ove
Probably make a daughter, but we gone fuck until the sun is up

Long as you right under my arms
I don't care bout nothin'
Ima leave all of my chains on every time we fuckin'
And if you don't give me anything. Give me your patience
Hate havin' dreams that you left. Try to get us right situation
