

## Time Speed

NoCap

Woah, woah  
No, no, no, no  
(SephGotTheWaves)  
(Al Geno on the track)  
Yeah, yeah  
Yeah

Soul in a cage but my mind free  
Put that Patek in the car, bet I heard time speed  
Work on my heart, it's cold, love maintenance  
Even if everyone else gone, then I'm staying  
Right here with you, yeah  
You got me feeling like life is here with you, oh, woah

When I take you shopping, bag it up, codeine on my calendar  
Every time we fucking back it up, show me I attracted ya  
Real is rare, double R  
They play with you, kill 'em all, I'ma turn this bitch to ghost town  
When I'm gone, you grieving, I know you need it  
Just go and take 'em off, girl, don't tuck them sheets in  
'Cause you gon' wear them when you see me  
I just hope you pull me closer every time I'm deep in  
And I just be giving you a whole different vibe  
I might be gone for a while, just write  
And if you fuck that nigga, just don't hold him tight, like you hold me  
Red bottoms for your issues  
Insecurity, girl, let me get through  
Pull up, red Ferrari stick  
I'm a king, baby, but fuck that Crown Vic
