

I'm Sad Too

Noe Venable

Any fool will tell ya
Not to look at toby mills
On a day you got a twinkle in your eye
He got hands like chew toys
From his work on the machines
And he waters them like roses when he cries

So I guess you got a secret
It gets bigger every day
As the subaru is filling up with rain
And the road is going nowhere
Though the arrow says New York
And the hour says it's time to say it plain

I'm sad too
Me and you we got to
Stick stick stick together
I'm sad too
Me and you we got to
Stick stick stick together

The twilight says, "I'm outta here"
The evening says, "I know"
The kids are clowning up to hit the cars
I always thought you'd wind up
Like the ghosts on my TV
And they'd shine you up and hang you in the stars

Sometimes I get afraid but
These dreams they die so brave
They just flip their fins and whistle as they're drowned
And I drunk up all my money
So I'd best forget to pay
And you haven't finished dealing
And they're wheeling you away
And the bus comes round to fill 'er up
The same time every day
But it's looking like we better stick around

I'm sad too
Me and you we got to
Stick stick stick together
I'm sad too
Me and you we got to
Stick stick stick together

The new year is a stillborn
We are running through the streets
Setting all the Christmas trees on fire
Rooted down and clutching
At the sheet metal sky
Like a bird electrocuting on the wire

Doo doo doo doo do doo
