Kill Rock Stars

NOFX

"Kill the rockstars" how ironic, Kathleen
You've been crowned the newest queen
Kinda like the punk rock Gloria Steinham
You can't change the world by hating men
Can't change the world by blaming men
Alternative/Republican

Just cause I don't know the reason you're so pissed
Don't dare tag me misogynist
I thought the goal here was mutual respect
Not constructing a separate sect
I wish I could have seen Courtney
Demonstrate some real misogyny
Can't change the world by hating men
