

Revival

NOFX

We made our own revival
We waited thirty years
It fitted for survival
When other band acts disappeared

I know I bet survival
(Come see us)
Coming soon to your town
(Come see us)
Just wait for our revival
(No wonder they wanna be us)
We're gonna tear it down
(Come see us)

I know I bet survival
(Come see us play)
I know I bet revival
(Come see us play)
We need it for survival
(Come see us play)
I know I bet revival
(Come see us play)
