

## Three String Guitar

NOFX

I got two arthritic legs  
I got five tuning pegs  
I've got a bike that chain that I turned into a strap  
I can't remember the songs that I wrote last week  
Yeah I've got that

I got thirty seven notes  
And hundreds of used up famous quotes  
And cliches on the wall  
My songs are like trees in the forest  
No one hears them fall

There are so many things  
I can do with just three strings  
Still nothing gets dropped into the hat  
I don't steal melodies  
And sometimes just change keys  
Song masturbation, yeah I've got that

But all I need is two  
To write better songs than you
