

Bark Loud

Noga Erez

Bark loud, I'm an underdog kid
Dark games but I'm not signed in
Patience better pay my shit
Long knife, gonna chop some meat
Bark loud, I'm an underdog kid
Dark games but I'm not signed in
Patience better pay my shit
Long knife, gonna chop some meat

If I had to count my blessings, you would be two
But I was never good at counting, am I missing a few?
Thought I would drop another zero 'cause it's good for the look
See, by the age of twenty, I knew every part of the sewage
Me and the roaches approaching down from the hole
Call me holistic, new-age or call me Dasha Snow
Where does this story go? Happy to epilogue
I need to pop out the mute phase into the chop-chop mode

Fixed plan, all a fixed plan
Fixed fate like a fish tank
Mixed-race, got a mixed chain
Misplaced like a missed train
Still, people call it outcast
I call it underdog
Got a tiny puppy jaw
Cannot chew the bone so I

Bark loud, I'm an underdog kid
Dark games but I'm not signed in
Patience better pay my shit
Long knife, gonna chop some meat

I hate all my friends but I keep 'em close
On a one-to-ten, I like you the most
Such a tasty cat, spot you with my nose
I could take a scale, weigh the pros and cons
Keeping you is fun, eating even more
Animals can feed other animals
Made a name but still kept anonymous
One day, you're the meal, next, you hold the fork
Tiny, shiny puppet on the dashboard
I can nod, up and down, taking it to the maximum
I can pull the plug, I can fix 'em all
What you need's a hit, take a level up
Finger on the knob, twist temperatures
I can melt the ice for the eskimos
Take a piece of me, take and pass it on

Fixed plan, all a fixed plan
Fixed fate like a fish tank
Mixed-race, got a mixed chain
Ms. Mess of the lowest cast
Still, people call it outcast
I call it underdog
Got a tiny puppy jaw
Cannot chew the bone so I

Bark loud, I'm an underdog kid
Dark games but I'm not signed in
Patience better pay my shit
Long knife, gonna chop some meat
Bark loud, I'm an underdog kid
Dark games but I'm not signed in
Patience better pay my shit
Long knife, gonna chop some meat

(You should smile more, Gogi)
