

Dance While You Shoot

Noga Erez

That's it, I finally lost my patience
I gave my health too many medications, it's over
You're done, you're gone, you're gonna pay
Hey, I got my ticket, mission accomplished
I won't miss you, won't diss you for killing my people
Taking my money, wasting my chances for sanity

But can you dance while you shoot?
Can you dance while you shoot?
Can you shoot while dancing?
Can you move while you shoot?

Perfect, you told me that it's worth it
So, I gave my time, my finest years you've taken
I've tried grasping your fingers, you gave me the middle one
Hey, I got my weapon, nice and polished
Dare you to mock me, so cocky
You know how to pet, the same time you threat
Don't test my loyalty

But can you dance while you shoot?
Can you dance while you shoot?
Can you shoot while dancing?
Can you move while you shoot?

Can you dance while you shoot?
Can you dance while you shoot?
Can you shoot while dancing?
Can you move while you shoot?

Can you shoot while dancing?
Can you dance while you shoot?
Can you shoot while dancing?
Bat, you could shoot while dancing
Can you dance while you shoot?
Can you shoot while dancing?
Can you dance while you shoot?

This is how it's done, I'm nobody and no one
But I can chop you with no knife, with no gun in hand, I can hit you
I can keep you down, all undone, pile of papers you really gotta sign
You should call, wait on line to hear
"At any point, you can go back to the main menu, just press 1, press 1, press 1."

You steal and you know how to hide it so damn fucking good
You cheat and you know how to justify it so damn fucking good
Oh my, look at all this mass
Got you in the balls, got you in your soft spot, you
You couldn't really guess
They set you up, put the corner there just for you
I thought you had me there, you play the wrong game
I thought you had me fooled right there, you messed with the wrong name
I take my name and my game and I throw them down the toilet
I take my shame and my anger and my best suit to go with
My mind is set and I'm no easy one to push, however
I know you know how to master anything with pressure, pressure

But can you dance while you shoot?
But can you dance while you shoot?
Can you shoot while dancing?
Can you shoot while dancing?

Can you shoot while dancing?
Can you dance while you shoot?
Can you shoot while dancing?
Bat, you could shoot while dancing
Can you dance while you shoot?
Can you shoot while dancing?
Can you dance while you shoot?
Can you dance while you shoot?
