

Knockout

Noga Erez

היי רוסו, לא אכלת ארוחת בוקר לארוחת בוקר

Get back to the front, front, it's a forefront
Sat there like your deal done and you're done, done
Long coat is the dress code of the old times
Some skin in the sun, skirt in the dump
Downtown, where the cash flow like the Nile
I fly by, like it's my prime, and I'm back like
Paycheck, spent all at once, like I live twice
One time for the dime, one for the mind

So cautious, so cautious, I'm walking on thin ice
So anxiously conscious, my compass imprecise
So short of theme, I have to compensate with size
I'm working my way up but never raise the price
I pay the price of laziness, haziness, hesitance
I thought the goal was to be present but the present is the scariest
I mean, woo, making beats could be a spooky place
So all my days are spent on peeping on somebody else
Well, I don't give a fuck

I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
It's the end of mankind, I just gotta keep in mind
It's the end of mankind, I just gotta keep in mind
It's the end of mankind, I just gotta keep in mind
I just gotta keep in mind, I just gotta keep in mind
I knockout

I got authority to send you home
And if I catch you down the line, it might be ceremony
They call it murderous, I really think it's out of mercy
So I done it once, the second time must be money
So worth it, so worth it, I must've done it right
So often, so often but they just never tire
I own it so I might as well just make it mine
And now you see me growing in the public eye, I had to try
So early in the morning, just to see me shine
They look at me for guidance, I just make 'em blind
I am the sun, I am the son, I am the wild
But mommy, I'm sorry I'm such a shitty child

I feel so lost, ends are losing on both sides
I'm in a zone, I worry I could never zone out
That kinda club will never let me in
I got the smell, they say I'm way too clean

I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out
I knockout, I knock my enemy out

It's the end of mankind, I just gotta keep in mind
It's the end of mankind, I just gotta keep in mind
It's the end of mankind, I just gotta keep in mind
I just gotta keep in mind, I just gotta keep in mind
I knockout
