

# Off The Radar

Noga Erez

Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar  
Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar

We make up everything  
We tell it as we want  
A reasonable substitute  
For something that never was

Small pieces are captured  
Stolen from your DNA  
I am the carrier  
I am the carrier

Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar  
Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar  
I'm off the radar  
I'm off the radar

We'll take whatever shines  
Whatever can blind an open eye  
And round the corners, flatten the bumps  
And fit you inside the lines

Pieces are captured  
Your muscles and your bones  
I am the carrier  
I am the carrier

I'm off the radar  
Hear me, no one sees me, no one  
I'm off the radar  
Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar  
Hear me, no one sees me, no one

Hear me, no one sees me, no one  
Hear me, no one sees me, no one  
I'm off the radar
