

Sunshine

Noga Erez

Hear the screen
Change
White to red
In the sunshine
In the sunshine

You see it on your chair
You're leaving me on the sand
In the sunshine
When you lied up [?]

But when you
When you're walking
Walking back, back
Back to nowhere

You'll never know
You'll never know of it
Walking back, back
Back to you're home

Honey said
Above your neck
In the night
(I see you, I see you, I see you)

You're body's taking all the room from your mind
Above your neck
In the night
When you shot down

But when you
When you're walking
Walking back, back
Back to nowhere

You'll never know
You'll never know of it
Walking back, back
Back to you're home

But when you
When you're walking
Walking back, back
Back to nowhere

You'll never know
You'll never know of it
Walking back, back
Back to you're home

But when you
When you're walking
Walking back, back
Back to nowhere

You'll hear me

You'll see me
