

## Switch Me Off

Noga Erez

I got no time to fight with you, my baby  
The bus is gone, I won't chase it again  
From behind the screen, I call you  
From behind the screen, I call  
Lemon-man has lost this war, my baby  
You try to make goodbye a sweet farewell  
You said that love will kill us both  
You said that love will kill us all

Won't you switch me off?  
Don't feed me bluffs  
I won't take one bite, one bite  
Please let me  
Won't you switch me off?  
Don't stitch my cuts  
Give me that shot, that shot  
Please let me  
Won't you switch me off?

God knows I'm a heavy load to carry (God knows I'm a heavy load  
)  
Or maybe I was just testing your back  
I'll tell you which one of us is crazy, mm  
Candy-man is lifting up the trophy  
We stand much shorter on that podium  
Second place is like losing it all, but  
It's me who made the final call

Won't you switch me off?  
Don't feed me bluffs  
Won't take one bite, one bite  
Please let me  
Won't you switch me off?  
Don't stitch my cuts  
Give me that shot, that shot  
Please let me  
Won't you switch me off?
