

Amerika

Noiseworks

What's the time in Amerika
You awake?
Is there anybody home?

Clandestine mass hysteria
Nothing changed in the world
We're all on the phone
Take your life with A 45
That was someone
I used to know
It's all for sale in Amerika
Could be famous
The star of the greatest show

We got a new melody
For everybody to sing
No matter what you believe
It's up to you and me
To make a better place
Where we all got along
And we could stand together

Is our God now the media?
And is chasing the truth
Gettin' old
Frankenstein is delirious
Needs a saviour
To take him back home

We got a new melody
For everybody to sing
No matter what you believe
It's up to you and me
To make a better place
Where we all got along
And we could stand together

Hear the sound getting loud
Resonating all around the world
Around the world
Love generating

Well, here we go once again
All we know
When you wake up and get outta' bed
Pick up ya' sticks
Get fed and go to work
If your lucky 'coz there's
So many people got nothing
And in this big old world
We call our home
If we don't get it right
We are wrong
All around the world
All around the world

Hear the sounds getting loud

Resonating all around the world
Around the world
Love generating

We got a new melody
For everybody to sing
No matter what you believe
It's up to you and me
To make a better place
Where we all got along
And we could stand together

We can make it if we try
Be together you and I
Yeah, we can make it
If we try
