

Burning Feeling

Noiseworks

La-la-la, la-la-la, la-la-la
La-la-la, la-la-la, la-la-la

You got the fever inside
I see it in your eyes
You got that burning feeling
That's gonna waste your life
You got the fear inside
But you can't resist temptation
And all you ever try
Just a little more, just a little more

Watch it flowing round inside your brain
But the feeling just won't last forever

La-la-la, la-la-la, la-la-la

You got the fever inside
I see it in your eyes
You got that burning feeling
That's gonna waste your life

Watch it flowing round inside your brain
Got the fever burning bright inside your veins
Watch it flowing round inside your brain
The feeling just won't last forever

La-la-la, la-la-la, la-la-la
La-la-la, la-la-la, la-la-la

You got the fever inside
I see it in your eyes
You got that burning feeling
You got that burning feeling

You got that burning feeling
You got that burning feeling
You got that burning feeling
You got that burning feeling

You got that burning feeling
You got that burning feeling
You got that burning feeling
You got that burning feeling, ooh...

La-la-la, la-la-la, la-la-la
La-la-la, la-la-la, la-la-la

Burning feeling
Burning feeling
Burning feeling
Burning feeling, this time
